

OUR RECENT ACADEMIC ACHIEVEMENTS

To University and Beyond!

**Hats off to our KYUEM students on
their outstanding overall performance
for 2022 A-Level results.**

5 A*s	2 students
3 A*s, 2 As	1 student
4 A*s	42 students

3 A*s	57 students
4 As & above	89 students
3 As & above	154 students

**KYUEM – Your launchpad to
the top universities in the world.**
Want to know more? Talk to us.

A selection of some of our best performers

Here's an account of how some of our students feel about being a part of this fine KYUEM tradition

“ To me facilities and resources can be obtained anywhere, but the people in KYUEM are some of the most unique and friendly people I've ever met. Not only do they have the ability to have fun, but they study just as hard. It was really a refreshing experience, not only pushing my academic standards to the next level, but also giving me a new perspective on life as a whole. There is no doubt I made many lifetime friends in KYUEM

Monte' Tan Jia Ying – 6A*
Chemistry - St. Anne's College, Oxford

“ This college has given me a one of a kind experience. It belongs in a league of its own. This is definitely a pit stop for all who want to fulfil their dreams.

Daryl Lee Kai Yuen – 5A*
Physics – Imperial College London

“ The peaceful and remote setting of KYUEM provides a breath of fresh air (quite literally) from the fast-paced city life. Throughout my endeavour, not only have I been able to develop my academic flair through the support of the teachers, but the environment there has also challenged me to step out of my comfort zone and become more holistic. The teachers and staffs are super pleasant to interact with, and I've made tons of lifelong friends there. KYUEM has definitely shaped me into the person I am today.

Muhammad Muaz Hanafi Abd. Rohim – 5A*
Materials Science and Engineering
Imperial College London

“ I think what I have enjoyed the most about KYUEM is being around a group of motivated people who strive to achieve great things. I have been able to explore my academic interests, make life-long friendships and receive guidance from teachers who care about my well-being. KYUEM is a place for everyone, and everyone is welcomed.

Pua Kok Wei – 4A*
Engineering – Princeton University

“ My experience in KYUEM has been a rollercoaster of a journey, mainly due to the coronavirus pandemic. However, my teachers were especially supportive in helping me get through the struggles of online learning. Furthermore, the huge support that I have received from my friends and the KYUEM University Relations department has been extremely helpful towards my journey to Cambridge.

Muhammad Farhan Amran – 4A*
Engineering - Fitzwilliam College, Cambridge

“ My time in KYUEM is irreplaceable. I grew a lot as an individual. For example, the community there inspired me to strive in academic study and challenged me to embrace time off. I also appreciate the conducive study environment we had on campus, and how supportive my peers and school staffs were. P.S.: I love the stars at night!

Vanessa Law Mei Yee – 4A*
Mathematics, Statistics and Business -
London School of Economics

“ I'm immensely grateful to have crossed paths with such inspiring individuals throughout my time in KYUEM. The college has undoubtedly provided me with an environment that motivated me to grow as a person as I learned from the best of teachers in a classroom of supportive friends who were always ready to help in times of need.

Sofea Arisya Muhammad Shaifuddin – 4A*
Economics - University of Pennsylvania

“ KYUEM, a college isolated in Lembah Beringin, quiet and remote. Yet the 2 years I spent there widened not just my opportunities but also my perceptions on life. I am eternally grateful for being able to go through A-Levels with such talented peers and excellent teachers.

Muhammad Harishah – 4A*
History, Politics and Economics - University
College London

Delivering All-Round Education

We nurture and encourage innovation, with the intention of producing individuals who will learn, adapt and think creatively. We produce high performing all-around students who have the pre-requisites to progress to the world's best universities and colleges.
